

# Drug Shortages and COVID-19

In addition to personal protective equipment shortages, the COVID-19 pandemic has led to shortages of critical drugs. Some shortages are due to breaks in the medical product supply chain with foreign producers, while others are due to a surge in need directly related to the pandemic and frontline responders treating SARS-CoV-2 patients.

## 1 Current and Resolved Drug Shortages and Discontinuations Reported to FDA

Check the website frequently for updates.

## 2 FDA Drug Shortages App

Download the mobile app.

- Receive notifications when there is new or updated information about a drug product shortage or a drug within selected therapeutic categories.

Report a drug shortage to the FDA's Center for Drug Evaluation and Research (CDER) at [drugshortages@fda.hhs.gov](mailto:drugshortages@fda.hhs.gov).
