“It is vital that all staff members take advantage of available training to make the transition to ICD-10-CM as painless as possible.”

Course Overview

This dynamic training program – offered both online and in-person – teaches OMS coding professionals to become proficient in the ICD-10-CM coding system, which took effect October 1, 2015. In this course, you will learn about the history, structure, and format of ICD-10-CM. You will see how ICD-10-CM compares to ICD-9-CM. In addition, you will learn how to apply the new coding conventions and guidelines to OMS diagnostic code assignment.

Learning Objectives

Upon successful completion of this course, you will:

- Identify the similarities and differences between ICD-9-CM and ICD-10-CM.
- Follow ICD-10-CM coding conventions.
- Apply definitions and guidelines to determine the correct code for a diagnosis.
- Assign accurate ICD-10-CM codes to OMS-related diagnoses.
