The Doctor is Out, but the Practice is Open: Billing for a covering doctor

Overview

Oral and maxillofacial surgeons may need to be away from their practices for a variety of reasons. Circumstances such as conferences, vacations and sick leave do not have to lead to a decrease in patients seen at a practice or require an office to close. During this 60-minute webinar, participants will review locum tenens/fee-for-time and reciprocal arrangements to help keep an office operating during an absence.

Learning Objectives

At the conclusion of this program, participants should be able to:

- Explain fee-for-time/locum tenens compensation arrangements.
- Define reciprocal billing.
- Discuss various payer guidelines for fee-for-time arrangements and/or reciprocal billing.
- Review CMS documentation requirements for fee-for-time compensation arrangements.
- Describe modifier guidelines.
- Apply tips for fee-for-time and reciprocal billing agreements.

About the Speaker

Catrena Smith is the owner of Access Quality Coding and Consulting, LLC. She has more than 18 years of experience in the health information management industry. She has served in various roles, including coding specialist, coding auditor, coding trainer, medical records technician and

coding manager. She presents numerous online and in-person coding and billing education sessions annually. She is a former American Academy of Professional Coders local chapter president, serves as a health information management student mentor and is an active volunteer for the American Health Information Management Association. She prides herself in helping grow the next generation of health information management professionals.
