From Skin Care to Skin Cancer: Management of Facial Skin for the OMS

Part three of three

Current Concepts in Cosmetic Skin Therapy

Overview

One of the immediate aspects of facial beauty that is noticed is the appearance of an individual's facial skin. This webinar will discuss the different aspects of facial skin pathology and treatments that are commonly addressed in the cosmetic dermatologist's office. Actinic damage and aging – along with resultant rhytids, skin laxity, vascularity and pigmentation disorders – will be addressed. Treatment protocols for conservative therapies – such as skin care, chemical peels, microneedling/PRP, RF and ultrasonic modalities – will be reviewed. Different options for non-ablative, subablative and ablative laser therapies will be discussed. In addition, complications arising from these treatments will be presented.

This 60-minute webinar will teach the participant to recognize common cosmetic skin complaints of patients and develop a tiered strategy of therapy that will predictably lead to facial skin improvement.

Learning Objectives

At the conclusion of this program, participants should be able to:

1. Identify and describe common cosmetic concerns of the facial skin.
2. Analyze patient factors contributing to a non-cosmetic appearance of the facial skin and develop a tiered approach to treatment and improvement.
3. Review common complications of facial skin therapies and develop a regimen for corrective action.

About the Speaker

The practice of Jon Perenack, DDS, MD, is almost solely devoted to facial cosmetic and reconstructive surgery. He completed fellowship training at the Facial Plastic and Cosmetic Surgery Center in Texas and his residency in oral and maxillofacial surgery at LSU Health Sciences Center New Orleans. Dr. Perenack was a full-time faculty member of the LSU Department of Oral and Maxillofacial Surgery from 2003 to 2015 and Director of Residency Training from 2005 to 2014. While maintaining an associate adjunct clinical professorship with LSU OMS, Dr. Perenack is

in full-time private practice in Baton Rouge, La., and offers a one-year accredited fellowship in facial cosmetic surgery. Dr. Perenack has numerous journal and book chapter publications in the cosmetic field to his credit and has spoken on the subject internationally.

Thursday, Oct. 17

7 – 8 p.m. EDT

6 – 7 p.m. CDT

5 – 6 p.m. MDT

4 – 5 p.m. PDT

Pricing

Price per registrant is \$125 for AAOMS members, \$200 for non-members.

Bundle and save! Register for all three webinars in this clinical series and receive \$75 off (\$25 off each webinar).

Can't participate during the live webinar? Register anyway! Registrants of this webinar will be granted access to view the recording online for a limited time.
