

# Title: Prospective outcomes of management of third molar extractions via a large multicenter study

**PI-1. Dr. Stuart E. Lieblich, D.M.D. University of Connecticut**

**PI-2. Dr. Deepak G. Krishnan, D.D.S. University of Cincinnati**

**Co-PI. Dr. Armando Uribe-Rivera, D.D.S. University of Cincinnati**

## Training Attestation

This is to attest that I, \_\_\_\_\_, have personally completed all required research and protocol training in regards to the above named study and will operate in a manner consistent with this training.

I completed the webinar study training on \_\_\_\_ / \_\_\_\_ / \_\_\_\_.

I further attest that I am personally responsible for:

- Complying with all federal and state law and regarding the protection of human research participants and, in the event of non-compliance, could be subject to disciplinary action;
- Assuring that I understand and carry out my responsibilities for communicating and reporting adverse events, changes to the study (e.g., consent, protocol, etc.), and protocol violations, deviations, and exemptions as required by law;
- Seeking help from the study Principal Investigator (PI) or regional research leadership if I do not understand my responsibilities for obtaining training;
- Reporting compliance questions or concerns;
- Maintaining copies of all documentation that I have completed the required training; and
- Making the training documentation available in the event of a compliance audit conducted by AAOMS or any external regulatory agency
