Understanding Practice Overhead

Overview

Practice costs continue to rise, and concomitant practice reimbursement remains stable at best. It is essential to have the skills to utilize software to prepare appropriate financial statements to provide the practice with accurate operating costs, current accounts payable and a comparison to budget. This 90-minute webinar explore how to utilize accounting software and detail the fixed and variable costs associated with an OMS practice.

Learning Objectives

At the conclusion of this program, participants should be able to:

1. Identify and express the benefit of utilizing a cogent accounts payable report.
2. Interpret the combined concept of utilizing a profit and loss report with a budget and accounts payable report.
3. Assess the current and ongoing financial health of the practice.

About the Speaker

John S. Bauer, MBA, CPA, FACMPE, CFE, CVA, is the cofounder and managing member of Aspen Consulting Group, Ltd. He has worked in the healthcare industry for more than 30 years. He brings to the organization an extensive level of hands-on experience in the management of healthcare professional practices. During his career, he has acted as administrative and executive director for more than 19 years for a single-specialty medical group, managing 12 offices throughout northeastern Ohio with more than 60 employees. He has managed the billing cycle and accounts receivable management issues inherent in his positions. In addition, he has participated in all aspects of planning, practice evaluation, executive compensation and benefit issues, provider contract review and negotiation, and all other related operational issues involved in the day-to-day operations of a healthcare professional practice.
